

PARENT FORUM

SCARECROW + CERES = SUSTAINABILITY

CERES (the Centre for Education and Research in Environmental Strategies) is a community environment project located beside the Merri Creek in Brunswick. CERES is also the name of the Roman Goddess for agriculture.

CERES aims to foster awareness and action on environmental and social issues affecting urban areas. They also look at what can be achieved at household, community and global levels.

On the 29th May there will be a parent forum on ***OUR SCHOOL'S SUSTAINABILITY SCARECROW PROJECT*** and the work we are undertaking with ***CERES***.

Our guest speaker Cara will cover:

- *A brief intro to sustainability issues,*
- *What Australian Sustainable Schools Initiative (AuSSi) and the school approach is all about*
- *Why it's important to have a whole of community response*
- *Some easy things to do at home*
- *Questions and Answers*

<http://sustainability.ceres.org.au/schoolProjects.php>

The forum will run from 7.00 – 8.15 p.m. Refreshments will be provided on arrival. Please complete the tear off slip in the Wattle and return it to the school's office

This is a very important evening so we look forward to seeing you there.

Randal Symons
Assistant Principal
